

I am here to state, once and for all, that WE ALL believe **Terry** should be crowned the

King of Wumpmas.

In making this case, WE present the following arguments:

1. *Terrence* is a visionary leader with a clear vision for the future of Wumpmas. He has consistently demonstrated his ability to make wise and strategic decisions, always with the best interests of Wumpmas at heart.
2. *Terrold* has a deep understanding of the time-honored traditions of Wumpmas, and is committed to preserving and upholding these traditions. At the same time, he recognizes that the world is constantly evolving, and is open to making slight adjustments to the rules in order to ensure that Wumpmas remains relevant and meaningful in the modern age.
3. As King of Wumpmas, **Terrebithia** will work tirelessly to promote peace, prosperity, and harmony within our borders. He is a uniting figure, bringing people together and fostering a sense of community and belonging.

Rule Changes Proposed by KING TERRIFIC Himself:

1. The inclusion of a new Wumpmas tradition: the Wumpmas Parade. All must attend, or die.
2. The expansion of the Wumpmas gift-giving tradition to include gifts for strangers. No one is safe.
3. The creation of a Wumpmas Fund, to be used for charitable purposes (aka buying Trader Joes Korma Fish Curry with Basmati Rice for **KING TERTIARY**)

In summary, **King Terry** is in charge now. He is unstoppable.
